REASONS FOR ALLOWANCE

➤ The following is an examiner's statement of reasons for allowance: The present invention is directed towards a method and apparatus for modifying an image may be applied to heal texture areas within the image. The closest prior art, Peters (USPN 5,715,334), shows a similar system, in which, an image information enhancement technique for processing digital images is presented, wherein enhancement of image detail contrast is accomplished by adding a differential hysteresis pattern to a digital image, the differential hysteresis image processing utilizes the persistence of intensity variations as means for data reduction and image detail contrast enhancement. However, Regarding claims 1,25 and 39, Peters fails to address: “for generating new differential pixel values for the modification region using the differential representation of the image texture region to obtain substantial consistency with the differential representation of the boundary pixels and integrating the new differential pixel values to obtain a modified image”; Regarding claims 18 and 33, Peters fails to address “for performing texture synthesis in differential space using the boundary region to produce a synthesized differential representation for the modification

region and integrating the synthesized differential representation to generate a modified image"; Regarding claim 48, Peters fails to address: "for applying the rate of change to the modification region and determining new pixel values for the modification region that exhibit the rate of change and that exhibit consistency with boundary pixel values adjacent to the modification region in the original image".

These distinct features have been added separately to different independent claims and renders them allowable.

- Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
